**DISPOSAL FEE PLAN
FOR
CLASS 4 LANDFILL**

ECO VISTA LANDFILL
2210 WASTE MANAGEMENT DRIVE
SPRINGDALE, ARKANSAS 72762

MAY 2010

DISPOSAL FEE PLAN NARRATIVE
FOR CLASS 4 LANDFILL

ECO VISTA LANDFILL
Springdale, Arkansas

1. Ticketing System

The following is a brief description of the Disposal Fee Plan that the Eco Vista Landfill has implemented to collect and manage solid waste disposal and data recovery. The Disposal Fee Plan accounts for all solid waste received for disposal, as well as material received for disposal but later recovered for recycling or otherwise diverted from disposal. The Eco Vista Landfill Disposal Fee Plan complies with Regulation 11 requirements.

- a) Tickets are issued to all customers, including all commercial in-state and out-of-state haulers, industrial, institutional and domestic users. Scale weights are used to determine the amount of material received. All solid waste volumes are compiled and reported by weight to ADEQ quarterly.
- b) Tickets for small or residential loads indicate the same information using a one ton minimum.
- c) The following customers are not charged for waste received; additional customers may be added as necessary. Tickets are issued to these customers and waste amounts and disposal fees are included in Solid Waste Quarterly Report Form.
 - i) Municipal clean-up events
 - ii) Emergency storm debris (as necessary and with prior approval)
- d) Material Receipt and Disposition. The following table generally describes the types of materials received, the disposition of the materials, and whether or not the material is accounted for in the Solid Waste Quarterly Report Form.

Material Description	Final Disposition of Material	Notes	Reported in ADEQ Quarterly Reports?
Class 4 Solid Waste	Disposal in Class 4 Landfill	Weighed when received, reported	Yes
White goods, lead acid batteries, waste oil, antifreeze	Not Accepted	Not Accepted	No
On-site recycling drop-off station	Not Provided	Not Provided	No
Yard waste	Accepted into permitted on-site compost area	Not Accepted	No
Waste tires	Not Accepted	Not Accepted	No
Recovered cardboard	Not Accepted	Not Accepted	No
Recovered clean untreated lumber	Disposal in Class 1 Landfill when accepted	Directed to compost facility if sufficient quantity	Yes

2. Waste Reduction

a) Fee Structure

Eco Vista Landfill uses a graduated fee structure to encourage users to segregate their materials to encourage recovery or diversion of various materials, such as white goods, from disposal. Also, the graduated fee schedule was developed to encourage users to segregate construction and demolition wastes for disposal in the Class 4 facility.

b) Recovered Material

The Eco Vista Class 4 Landfill does not accept for disposal or recovery the following items: white goods, lead-acid batteries, waste motor oil, waste anti-freeze, yard waste, recovered cardboard, clean and untreated lumber, and tires.

c) Alternate Daily Cover

Eco Vista Landfill submitted data to ADEQ and received authorization for the use of tarps as alternative daily cover material. This material has no impact on the weight or volume of solid waste material disposed of at the landfill.

In the event that an alternative daily cover material is used which is taken from the approved waste stream as a beneficial use or re-use, the material will be weighed upon receipt, reported, and then subtracted from the quarterly reports when used.

3. Record Keeping

a) Eco Vista Landfill uses a software program to track and compile solid waste received for disposal. The software stores the tare weights for registered commercial vehicles, updated at least once per year; reads and records data either automatically from the landfill scales or manually for small domestic-type loads; and reports data in daily, weekly, and/or monthly quarterly formats. The data may be routinely backed-up each night and stored at an off-site location.

b) Ticket Copies. Ticket copies are printed in triplicate by computer, with copies for the facility records, the customer, and the auditors. A sample of a ticket used at the Eco Vista Landfill is included in Attachment 1.

c) Records and Tickets Location. Data records and solid waste tickets are maintained at the Eco Vista Landfill facility. Normal office business hours are 7:00 AM to 4:45 PM, Monday through Friday, except holidays. The office is located at 2210 Waste Management Drive, Springdale, Arkansas 72762.

| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets totals match Solid Waste Quarterly Report |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets issued on waste totals as received at the gate |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets include customer name and address |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets show geographic source of waste |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets show type or kind of waste |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Tickets show net weight or volume of waste |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | X Tons _____ Uncompacted CY _____ Compacted CY |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Records readily available and accessible for inspection |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Record keeping meets requirements specified by regulations |

DESCRIPTIVE NARRATIVE

On separate sheets, provide a brief descriptive narrative showing "when and where" steps taken and methods used to establish weight or volume of total waste reported on Solid Waste Quarterly Report Form. Include a brief narrative of recycling and yard waste projects in place and recordkeeping procedures used to identify materials pulled from the waste stream and marketed or otherwise put to a beneficial reuse. Include a brief explanation of any special circumstances or considerations not covered in this format. **SEE ATTACHED EXAMPLE.**
