

FETHERSTON EXPLORES MYTHS AND FACTS

Energy Efficiency Arkansas (EEA) Facilitator John Fetherston presented, "Myths and Facts About Energy Efficiency" to a Central Arkansas Library System (CALs) Zoom audience, April 12, 2021. His presentation was a part of CALs's focus on "earth month" in relation to Earth Day, which was April 22nd. Fetherston, who is with the Office of Energy, Division of Environmental Quality, gave audience members a number of tips as well as the opportunity—via the Zoom chat feature—to answer "fact" or "myth" in relation to several statements about energy efficiency. Audience members were challenged with statements such as, "Appliances still use energy after they have been turned off" (fact), and "Do not insulate your home too well because it needs to breathe" (myth).
