

RYAN LEE
Lead Program Manager
Oklahoma Gas & Electric

LEE TAKES ADVANTAGE OF EEA PRESENTATIONS

Oklahoma Gas and Electric (OG&E) Lead Program Manager Ryan Lee knows there is no substitute for meeting face-to-face with customers. OG&E is Oklahoma's oldest and largest investor-owned utility that also serves part of western Arkansas. In his work with the utility, Lee's job responsibilities ensure that he has several opportunities to interact with customers, including, from time-to-time, attending Energy Efficiency Arkansas Facilitator John Fetherston's presentations. Most recently, Lee joined Fetherston for his Energy Efficiency Myths & Facts presentation at the Johnson County Senior Activity Center in Clarksville.

Lee said, "We appreciate the Energy Efficiency Arkansas office allowing us to be present at these events. We realize that their impartial position in the State can give us more credibility with our customers." Lee also represents OG&E in the Arkansas Public Service Commission-initiated working group, Parties Working Collaboratively (PWC). PWC includes utilities—like OG&E—and the Arkansas Energy Office but also includes organizations like Audubon Arkansas and the Sierra Club. The goal of PWC is to present recommendations to the Public Service Commission in a single filing, which allows the board to address issues more quickly.

UPCOMING EVENTS

DATE	EVENT	CITY
