Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Community Based Organizations make payments to home energy suppliers except for Central Delta Community Action Agency (CDCA A). Arkansas Energy Office makes payments on behalf of CDCAA.

9.2 How do you notify the client of the amount of assistance paid?

The Community Based Organizations send a Notice of Action (AEO 2001) which details the status of their application. This information includes whether the application was approved or denied. If denied it includes the reason for denial. If approved, the information includes the LIHEAP payment amount and the name of the energy supplier.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Supplier Agreements are signed between each energy supplier and the Community Based Organization prior to making a direct payment. The contract outlines LIHEAP policies and regulations that govern the energy supplier when accepting LIHEAP payments; LIHEAP client rights are outlined in the agreement as well. The LIHEAP Arkansas Home Energy Supplier Agreement, Item C, between the energy supplier and the state of Arkansas, Community Based Organization, states that the recipients will be charged using the "Normal Billing Process". This is the difference between the actual cost of the home energy and the amount of the LIHEAP payment. The energy supplier is subject to monitoring by Arkansas Energy Office and the Community Based Organization in order to assure compliance. Any client complaint of not seeing the LIHEAP payment as a credit on his/her account is investigated.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

This is included in the Supplier Agreement established between each energy supplier and Community Based Organization. Also, Arkansas Energy Office and the Community Based Organizations follow up on any client complaints.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

**LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP)
MODEL PLAN
SF - 424 - MANDATORY**

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

The Arkansas Energy Office (AEO) is required to follow the Arkansas Department of Finance and Administration fiscal policies and procedures which are in compliance with federal fiscal regulations. AEO also adheres to LIHEAP federal regulations. Community Based Organizations requests for funds and reimbursements are reviewed as to grant balances and supporting documentation, and then compared to approved budgets and submitted weekly cumulative reports that show applications received, approved, and expenditures made to utilities. Based on federal requirements to have an annual single agency audit, AEO requires a copy of the audit report when it becomes available and reviews the findings for any needed follow-up.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

No Findings

Finding	Type	Brief Summary	Resolved?	Action Taken

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices?
Select all that apply.

- Local agencies/district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133
- Local agencies/district offices are required to have an annual audit (other than A-133)
- Local agencies/district offices' A-133 or other independent audits are reviewed by Grantee as part of compliance process.
- Grantee conducts fiscal and program monitoring of local agencies/district offices

Compliance Monitoring

10.5. Describe the Grantee's strategies for monitoring compliance with the Grantee's and Federal LIHEAP policies and procedures: Select all that apply

Grantee employees:

- Internal program review
- Departmental oversight
- Secondary review of invoices and payments
- Other program review mechanisms are in place. Describe:

Local Administering Agencies / District Offices:

- On - site evaluation
- Annual program review
- Monitoring through central database

<input checked="" type="checkbox"/> Desk reviews
<input checked="" type="checkbox"/> Client File Testing / Sampling
<input checked="" type="checkbox"/> Other program review mechanisms are in place. Describe:
AEO has developed a risk assessment through an in-house program, ePortal, that will allow subgrantees to report on program activities in order to guide the annual program review.
10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
<p>At the beginning of the year, on-site monitoring will continue to be suspended due to the pandemic and many staff working remotely. Arkansas Energy Office (AEO) is working to establish a secure system where Community Based Organizations can upload client files to enable desk reviews by AEO LIHEAP staff. Program evaluations, including results of client file sampling and review may be conducted by Zoom or other remote means. Currently, we do not have a monitoring schedule for this program year. A secure means to transfer client files digitally has not been found. Many of our Community Based Organizations are closed to the public. We anticipate resuming our standard monitoring when it is safe to do so or a system for remote monitoring is established.</p> <p>Preliminary monitoring schedule attached.</p>
10.7. Describe how you select local agencies for monitoring reviews.
<p>Site Visits:</p> <p>During the last two to three years monitoring has been slowed to a minimum because of the nation-wide health emergency, COVID. Safety concerns for employees and CBO staff has taken precedence over in-person monitoring visits.</p> <p>AEO has been working to develop alternatives to in-person monitoring. Initially AEO will perform a risk assessment. Depending on the results of the risk assessment an agency may be escalated to full monitoring status. The risk assessment, starting in 2022, will be performed annually through electronic means (desk monitoring).</p>
<p>Desk Reviews:</p> <p>Potential problems or complaints will continue to be reviewed. Community Based Organizations send redacted client files if there is a problem or complaint. These reviews will cover application, documentation, determination of eligibility and amount of benefit, notification to client and payment to energy supplier as well as overall adherence to LIHEAP policies and procedures.</p> <p>Each CBO has the option of administering the program using software of their choice. Some of the CBOs have made data available to AEO electronically, which will allow for remote monitoring of some applicant files.</p>
10.8. How often is each local agency monitored ?
Policy establishes yearly risk assessments that may escalate to monitoring of both Winter and Summer LIHEAP programs after the programs close if the risk assessment is not acceptable. More than one program may be monitored during an on-site visit. AEO intends to reach each Community Based Organization at least annually. Monitoring priority is given to agencies that have a pattern of issues or complaints.
10.9. What is the combined error rate for eligibility determinations? OPTIONAL
10.10. What is the combined error rate for benefit determinations? OPTIONAL
10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 0
10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? 0

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Assurance 16 services is structured to encourage and enable households to reduce their home energy usage and ultimately their dependence on energy assistance. Assurance 16 activities may include needs assessments, counseling referrals to other services, education programs on ways to save energy, and household budgeting.

One feature of A-16 allows Weatherization staff to speak about home efficiency projects that are sponsored by weatherization and how the projects promote energy conservation within homes. Additionally, Weatherization staff educate participants on ways to save money within the household such as installation of LED bulbs.

Case Management Activities (CMA) will be targeted toward Crisis Intervention Program applicants and also, when deemed appropriate and necessary, the Regular Assistance Program.

AEO is considering implementing standardization of A-16 services, which includes requirements surrounding energy conservation/savings practices.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

5% of LIHEAP program funds are allocated to Community Action Agencies for Assurance 16 programs. Since Assurance 16 is an optional program in Arkansas, any CAA electing not to operate an Assurance 16 program will use these funds for Regular or Crisis benefits. The reimbursement process does not allow expenditures of more than the allocated amount by any CAA.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The Assurance 16 programs are educationally based with an emphasis on household budgeting skills and energy conservation to promote self-sufficiency and to lessen the household energy burden. Most Assurance 16 participants have reported a decrease in energy usage and an increase in the ability to manage household needs. A total of **466** households were served during FY 2021.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

The Arkansas Energy Office (AEO) has established policy expectations for CBOs to ensure they are collecting and entering accurate and complete data into their software for LIHEAP performance measures. Applications are revised to collect any required data. Agencies are required to submit a weekly report (routinely) and a monthly report (upon request) during the program year to keep a focus on data collection.

AEO contracts with Communities Unlimited to collect data used to compile the quarterly report, the household report, and the LIHEAP performance measures as required. After closeout of each program season, data will be collected and examined for any problems.

Listings of LIHEAP clients will be sent to energy suppliers to collect data for customer households to be used for the performance data report.
