

**Checklist of minimum documents required for submission of a
Notification of Exhausted Quarry pursuant to the Arkansas Quarry
Operation, Reclamation and Safe Closure Act.**

1. NOI Form
2. \$250.00 fee (due with NOI)
3. Detailed reclamation plan that includes the following:
 - (A) Date when reclamation will begin;
 - (B) Anticipated date of completion of reclamation based on the timeframes provided in A.C.A. 15-57-409(b)(9);
 - (C) Disposal Agreement between the operator and landowner for any equipment, tools, manmade structures and debris that will be removed from the affected area of the quarry operation;
 - (D) Plan for the disposal of acid forming materials;
 - (E) Plan for replacement of topsoil and spoil; and
 - (F) Plan for revegetating the site with either grasses or trees.
3. Reclamation Map
 - (A) Identification of all planned roads, water impoundments, final walls, final floors, unconsolidated slopes, quarry rims, areas to be re-vegetated, berms, other manmade structures and unaffected areas;
 - (B) The map shall show planned reclamation according to the requirements of the reclamation plan; and
 - (C) The affected land acreage to be reclaimed will be shown to the nearest acre.

Additional information on the requirements of any of the above listed items may be found in Act 1166 of 1997, the Arkansas Quarry Operation, Reclamation and Safe Closure Act.
