

**Help divert used coffee grounds and filters from landfills.**

The Renew the Brew project is sponsored by the Arkansas Department of Environmental Quality's Business Assistance Program.

**[www.adeq.state.ar.us](http://www.adeq.state.ar.us)**

**When it comes to reducing waste, every little bit helps. Do your bit by helping us give our old coffee grounds a second life.**

**Add used coffee grounds and filters\* to the Renew the Brew collection container.**

(No tea bags, please. Loose tea is acceptable.)

Volunteer to take the coffee grounds home to add to your garden or compost bin.

\* Although many white coffee filters are bleached, much of the bleach dissipates during coffee-making. If you are concerned about the bleach, you can buy unbleached or reusable filters.
