RE: Comments on Use Attainability Analysis for Wilson Creek Garland County, Arkansas
AFIN 26-00277, NPDES No. AR0048950

Dear Mr. Malcolm,

Thank you for submitting the 2004 "Wilson Creek Minerals Water Quality Standards Evaluation", the 2005 "Use Attainability Analysis for Wilson Creek Garland County, Arkansas", and the 2009 "Addendum to the December 2004 Wilson Creek Minerals Water Quality Standards Evaluation" for our review.

The UAA satisfies the requirements outlined in Reg. 2.303, Reg. 2.306, and the 2000 State of Arkansas Continuing Planning Process Chapter IX. At this time, ADEQ does not have any further questions or concerns regarding the UAA.

It is appropriate to move forward with a third-party rulemaking as outlined in Reg. 8.811.

Please call either Ms. Mary Barnett or Mr. Jim Wise of my staff at 501-682-0744 if you have any questions or comments.

Sincerely,

Steve Drown,
Chief, Water Division
