Comments on removal of domestic water supply use from Town Branch and Holman Creek	I OPPOSE the removal of the domestic water supply designated use from Holman Creek and Town Branch. Although domestic water supply use is not an existing use on these stream reaches, designated uses are meant to represent the goal of a particular waterbody. I feel strongly that the domestic water supply uses should remain a GOAL for these stream reaches.
Additional comments (optional)	The change proposed will allow a reduction in water quality in Holman Branch and allow Butterball to expand their operations in NE Arkansas. This will impact additional streams with increased pollution. These impacts must be analyzed and modeled prior to any decision. It does not matter that these will mostly be non-point source impacts. They will become point source where they drain into the streams. Table Rock Lake is downstream and already has enough problems with water quality. This is a cross state issue.
