RE: Vulcan Construction Materials, LLC Use Attainability Analysis
FTN No. R06532-1009-001

Dear Mr. Rigsby:

Thank you for submitting Development of and Technical Support for Site-Specific Criteria for Total Dissolved Solids and Sulfate in Brushy Creek and Sulfate in Stennitt Creek, Lawrence County, Arkansas for Vulcan Construction Materials, LLC (Vulcan). The Department reviewed responses provided by FTN Associates, LTD on October 5, 2018. The Department has no further comments. The Department has no objections to Vulcan moving forward with a Petition to Initiate Rulemaking pursuant to Ark. Code. Ann. 8-4-202(c).

The Department will provide documentation of Vulcan's proposed site-specific criteria and aquatic life designated use attainment to US EPA Region 6 Water Quality Standards staff. The Department will also submit appropriate correspondence reflecting cooperation with the State on addressing the Department's and EPA comments and recommendations.

If you have any questions, please feel free to reach me at 501-682-0660 or clem@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sarah Clem", is written over a light blue horizontal line.
