Dear Patti Goff:

To take such a drastic measure, without the science to back up the decision, sets an extreme precedent. What happens when they decide to allow another outside 3rd Party Rulemaking group that wants to change something in another area? What happens when you chose to expand beyond limits on hogs to include dairy, beef, poultry? While I understand this only applies to medium and large farms this time, what is next? All farms?My farm?Mywatershed?

Sincerely,
