Little Rock, AR 72118

Hello and thank you for reading my letter. I really feel that the preservation of our natural resources is of vital importance to the physical, mental, & economic health of all Arkansans. The Buffalo River is one of our most valuable assets/resources, & once it's polluted, it is destroyed as a viable scenic river, one many Arkansans and tourists enjoy. I have hiked on several trails that look down on it.

So, I urge you to support the ban on new medium & large confined swine operations in the Buffalo National Rivershed, by amending Arkansas Pollution Control & Ecology Commission Regulations 5 and 6.

Thank you for your attention to this urgent matter. Remember, we won't be "The Natural State," if we don't protect our resources.  
Sincerely, Barbara L. McClelland
