Subject: Proposed Reg 5 & 6 changes

Dear Mr. Szenher,

I attended the meeting in Harrison on June 17th but chose not to give an oral comment. I would like to go on record in favor of the proposed changes to Regulation 5 and Regulation 6. The Buffalo National River watershed is no place for any medium to large CAFO operations. It is imperative that the Regulations that allowed the CAFO to open and operate near Mt. Judea be changed to ensure that nothing like this happens again in the future. It is inconceivable that any such operations would be permitted in an area of Karst geology, let alone in the watershed of a National River.

Sincerely,

David Timby

Mayor of Gilbert
