Subject: Save the Buffalo River

To Whom It May Concern,

I am writing to you to ensure the protection of the Buffalo River. I have grave concern for the river if the pig farm is allowed near one of our most pristine natural environments. Please understand how important the river is to the wildlife, the people who live near this area and the community at large. I do not think this type of farm is safe for this area and I do not support such a farm anywhere near the river. Taking this gamble with the environment and the river is not an option and is not supported.

Please take this into consideration and if you have questions you are welcome to call me at 479-957-0840.

Thank You,
Deja Glover
