Subject: swine farming in Buffalo River watershed

Gentlemen,I am Jerry W Turney at 6301 East Broad Street in Texarkana,Arkansas 71854.I would like to register my disapproval of swine farming in the Buffalo River watershed.I do not think that the farmers,the county nor the State of Arkansas will implement strong enough safeguards to insure that pollution from the operations will not foul the pristine waters of this beautiful river.As you deliberate on this subject please remember the pollution problems associated with raising chickens and the problems we caused our neighbors in Oklahoma.This river is a very valuable asset to all the citizens of Arkansas and our visitors. Thank You Jerry W Turney
