

June 27, 2014

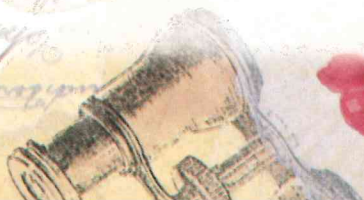

Dear Doug,

I am writing to request your consideration in the matter of additional CAFOs in the Buffalo River watershed. Please ban new medium and large confined swine operations in this area. The reason that I ask this of you is evident in the following quote from Xingzi (a recent visitor): "City ban. City grown. I had never had an experience like this, sitting down on the large piece of grass, watching so many stars. Such a wonderful experience that I can never forget!"

Please please please... do this for your grandchildren.

Thank you from the bottom of my heart.

Very sincerely,
Jo Duncan
