Doug Szenher

Public Outreach and Assistance Division

Arkansas Department of Environmental Quality

5301 Northshore Drive

North Little Rock, AR 72118

Dear Doug Szenher:

It's scary to think our own PC&E would trump EPA. Most farms are contiguous to some water shed and we work to protect it since it is the source of our, as well as our children's way of life. To do any less would be insane. If we are unaware, make us aware. But back it up with factual science and not innuendos.

Sincerely,

John McGraw
