

June 11, 2014

Dear Sir;

I have been a resident of Arkansas for 35 years and my husband and I moved to Arkansas because of the wonderful water quality. Not long after our move we found out about the Buffalo River.

Through the years we have been privileged to spend many hours along it's shores on horseback and on the pristine waters in a rented canoe.

We know about the topography here in the Ozarks and we are very concerned about the hog farm. Since it seems nothing can be or will be done about it's existence - that is until the "Unthinkable" happens - we urge ADEC to ban any new hog farm operations anywhere near the Buffalo River or any other

bodies of water. We live
very near the Beaver Lake
and we support any effort
to maintain water quality
in Arkansas.

Please pass the amendments
to Regulations # 5 and 6.
Any help to maintain our
wonderful Arkansas must
start with A D E Q.

Thank You so much for
the help.
