Subject: Protect the Buffalo River

Hello,

I am writing you in regards to the Cargill swine farm(s) that is polluting our beautiful Buffalo River, the nation's first dedicated national river. This is a treasure that our environmental- political forefathers recognized as such and did the proper procedures to protect this national treasure. Now it is up to you to help protect this free flowing river. Please vote to keep medium & large confined swine operations out of the Buffalo National River watershed. Please amend the Arkansas Pollution Control and Ecology Commission Regulations 5 & 6.

Thank you,

Julie Brandt
