Subject: Please save a great river!

Dear Mr. Doug Szenher, Arkansas Department of Environmental Quality, Public Outreach and Assistance Division.

I don't live in Arkansas, but I have traveled the Buffalo River and found it to be of exquisite beauty. The Buffalo is a naturally beautiful place that so many people enjoy and I believe that allowing medium and large swine farms anywhere close to the Buffalos watershed area would pollute and ruin this River for miles, not to mention the health aspects of people that would get sick from swine urine and fecal runoff. I would hope to bring my kids to show them this wonderful, natural area in the future but would hate for it to be polluted from agriculture runoff. Please, help these companies find areas further away from Buffalo River so that it can be protected and enjoyed for years to come.

Thank you for your time,

Richie Stevens
