Subject: Protect your Buffalo River!!

Although I live in Texas, I and several of my friends in the Waco Paddle Club frequently drive to Arkansas to paddle your rivers, in particular the Buffalo River. We have always been so delighted - and astounded! - at how beautiful and clean the Buffalo River is. Unfortunately, Texas has not been as diligent as Arkansas in actively protecting our rivers.

I hope you will enact legislation and enforce it so that your rivers, the Buffalo River as well as others, will be protected in as pristine a condition as possible. You owe it to all who love the rivers today and to the future generations who will come to love the rivers in their time.
