Public Outreach and Assistance Division

Arkansas Department of Environmental Quality

5301 Northshore Drive

North Little Rock, AR 72118

Dear Doug Szenher:

I oppose any changes to Reg 5 and Reg 6 under the guise of third-party rule making, because the Commission allowing this type of third-party rule making will open a Pandora's box of foolish and potentially very expensive proposals, hearings, and deadlines, and could easily turn the work of ADEQ into a circus of litigation. Arkansas is not California, and we can do better than allowing small individual groups or moneyed individuals from jerking our regulations around.

Sincerely,

Tom Jones
