APC&E Commissioners  
c/o Doug Szenher  
Arkansas Department of Environmental Quality  
Public Outreach and Assistance Division  
5301 Northshore Drive  
North Little Rock, AR 72118-5317

June 25, 2014

Dear Mr. Szenher:

This letter is in opposition to the third-party proposal by the Ozark Society and the Arkansas Public Policy Panel to change APC&EC Regulations 5 and 6: "Liquid Animal Waste Systems,;" and "Regulations for State Administration of the National Pollution Discharge Elimination System," respectively. I strongly oppose this change and feel it would be more harmful to the livelihood of the majority population of Newton County. The current governmental regulations already in place are sufficient to regulate farms and any future farms.

The economy of Newton County is under a severe strain as it is. Some of which is due to government entities that do not contribute to the economy. Therefore, I feel regulations other than what is already in place, put forth on this county to limit farmers to produce products is a great misconduct of power.
