Subject: Oppose Nutrient Trading Reg 37

I oppose NANTRAG's proposed APCEC regulation 37

Nutrient Trading simply allows polluters to avoid controlling their own discharges and continue dumping waste into local waterways by relying on credits, water pollution trading schemes, that threaten the drinking water and public health.

I believe the NANTRAG proposal lacks sufficient implementation procedures, lacks measurement of promised results, and fails to adequately protect Beaver Lake, the drinking water source for NW Arkansas.

Sincerely,
Cathy Klein
