20 Jun 14

Dear Mr Szenher:

I wish to go on record that Regulation 5 & 6 of APCEC would be good for keeping the water of all rivers in Arkansas clean. I lived in Arkansas for fifty five years & love the Buffalo River area. We have raised cattle started to in 1965 in White County. My land I love & would not want a CAFO set up on the Des Arc that runs through our land.

Sincerely,

Derrel Holden
