Dear Mr. Szeher,

I oppose a moratorium on farms in the Buffalo River Watershed. I think agriculture is a large reason that our great state is clean, beautiful and natural. Environmental regulations should be science based and reasonable not driven by emotion. Please consider the benefits and stewardship of Arkansas farmers before you react to misinformation in the public arena.

Never in history has agriculture been so attacked. Please don't let this happen in Arkansas!!

Sincerely yours,  
James T. King
