Arkansas Pollution Control and Ecology Commission  
101 E. Capitol Ave., Suite 205  
Little Rock, AR 72201

To whom it may concern,

As a group that embraces science at the core of its everyday function – to protect the water-quality and environmental resources of the state of Arkansas – it is amazing to me that the commissioners of the PC&E are allowing a third-party rulemaking proposal that is devoid of science to be considered for approval.

---

How can you turn your back on science at the time it is most needed?

It sounds to me like the commissioners of the PC&E have embraced the language of fear and emotion that the aginners have so loudly trumpeted.

What should ring true during this emotional debate is sound science.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Pritchard". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
