Subject: Protect the Buffalo River !

I am against swine operations in the Buffalo River watershed.

A hog waste pond would create horrible damage to fish, turtles and other animals who live there. Heavy rains would cause runoff that we cannot stop.

The Buffalo River provides tourist dollars that could not be replaced. Many people depend on it here in Ark.

The Natural State needs to stay Natural. Do not mess up this treasured River. Don't POOP on it with hogs.

Thank you

Steve and Sally Zahner
