Subject: Protecting the Buffalo River
Date: Sunday, September 22, 2019 11:34:04 AM

I fully support the changes proposed by the ADEQ to Rule 5 and Rule 6 that would institute a permanent moratorium on issuance of permits for medium and large swine CAFOs in the Buffalo National River watershed. The watershed and Buffalo National River should be protected for all generations.

In addition I believe that all medium and large CAFOs (not just swine) should be prohibited in the Buffalo River watershed. If swine CAFOs were to be replaced by other CAFOs, nothing will have been gained and the Buffalo River will be lost as a natural river/resource.

Sincerely,
Calvin Doody
