Subject: Buffalo River Watershed Permanent Moritorium
Date: Tuesday, August 27, 2019 9:29:02 AM

Hello.

I am writing to indicate my support for the proposed changes to Reg 5 and 6 that will provide a permanent moritorium on medium and large CAFOs in the Buffalo River watershed. This action will help protect the river and area springs from contamination from concentrated animal waste.

Thank you
Holly Felix, PhD.
