Subject: Common Sense on The Buffalo
Date: Monday, September 16, 2019 11:12:27 AM

As a regular Buffalo River user, it's plain to me that the River is a big time revenue generator for our state. Why hesitate on a decision based upon geological science?

I support the changes proposed by ADEQ to Rule 5 and Rule 6. Hog farms in the Buffalo River watershed area only risk depreciating the value of one of the gems of the nation.

Thank you for your consideration,

Jeff Burgess

Clinton, AR
