I was encouraged to see that the C&H hog farm buyout was done to protect the Buffalo River. I'm concerned that more agriculturally dangerous activities might intrude on the Buffalo River Watershed in the future. I support the changes to Rule 5 and 6 for a permanent swine CAFO moratorium in the Buffalo National River Watershed as stated in Docket Numbers 19-002-R and 19-003-R.

Hog farms need to be located where they will not damage fragile watersheds.

Thank you for accepting my input.
