September 16,2019

To all Commissioners,

By now it should be clear that the Ozarks and specifically the Buffalo National River Watershed is not the place to ever allow a CAFO of any description. Common sense was missing the last time the ADEQ approved one and look what it has cost the State in time and money. Please don't make this mistake again.

I support the changes proposed by ADEQ to Rule 5 and Rule 6 that would institute a permanent moratorium on issuance of permits for medium and large swine CAFOs in the Buffalo National River watershed.
