Subject: Buffalo River watershed moratorium
Date: Monday, September 16, 2019 7:38:39 PM

With the error in permitting the C&H CAFO behind. I us, we hope, it's time to reflect upon the fragility of the Karst geology that constitutes the Buffalo National River watershed, the natural features that the river provides us, and the tourism that it attracts. I support the changes proposed by ADEQ to Rule 5 and Rule 6 that would institute a permanent moratorium on issuance of permits for medium and large swine CAFOs in the Buffalo National River watershed.

Keep Arkansas the Natural State!
