Subject: YES -Permanent moratorium against medium and large size CAFOS in the Buffalo River Watershed
Date: Saturday, September 21, 2019 4:01:48 PM

Yes, I believe there DOES NEED TO BE A PERMANENT MORATORIUM AGAINST CAFOS in the Buffalo River Watershed. The entire situation involving C & H Hog Factory was a fiasco that I do not think the state of Arkansas needs to go through again.

MANY UNSCRUPULOUS people might want to try this business again in order that the state would PAY THEM OUT AGAIN. It could even result in more known and unknown damage to any number of other rivers in our NATURAL STATE.

I am very pleased with Governor Hutchinson and the conservative leadership that made this decision to show Arkansans and others that Republicans are concerned with our environment also. Many people I know assume.... without reason...that Republicans do not care about environmental issues.

I definitely am in FAVOR of this PERMANENT MORATORIUM.
