Subject: Buffalo moratorium

I support the changes proposed by ADEQ to Rule 5 and Rule 6 that would institute a permanent moratorium on issuance of permits for medium and large swine CAFOs in the Buffalo National River watershed.

Thin soils and karst geology make medium and large hog operations along the Buffalo River unsuitable and unmanageable. Let's not repeat the mistake we made in the past by delaying the proposed changes mentioned above. Let's keep our National River clean for all of us to enjoy. Arkansas has a jewel, let's protect it.
