Subject: Buffalo moratorium
Date: Monday, September 16, 2019 4:28:00 PM

When I first heard of the C&H hog farm being built in Mt. Judea, Arkansas, I felt there was not possibly a greater insult to the natural world as it pertained to the Buffalo River.

So I can whole heartedly say that I support the changes proposed by ADEQ to Rule 5 and Rule 6. I understand that these changes mean that there is a permanent moratorium on issuance of permits for medium and large swine CAFOs in the Buffalo National River watershed.

It was, in my opinion, too long in coming and I hope that the karst topography that was impacted by this CAFO and the river itself can recover.

Thank you for having this issue open to public comment.
