Subject: Buffalo River moratorium
Date: Tuesday, September 17, 2019 8:47:37 AM

I am in full support of the permanent moratorium on medium and large scale hog farm factories in the Buffalo River Watershed. Arkansas needs to do everything it can do to preserve the nation's first national river. I see no reason to allow these type of operations to exist in the watershed. Whether or not they harm the river will only be known after the fact, and then it will be too late if they have damaged this beautiful river.

Please establish this moratorium and allow our children's children the chance to enjoy the Buffalo's natural beauty.

Sincerely,
Stephen Ballard
Fayetteville, Arkansas
