Subject: CAFO moratorium along Buffalo River
Date: Sunday, September 22, 2019 5:40:21 PM

I recently moved to Northwest Arkansas. This spring I had my first chance to both hike and float on the Buffalo River. I was impressed with the river including the wildlife I saw and the quality of the water and can understand why people consider it such a special place. I learned that people familiar with the area were concerned about possible impacts from the C&H hog farm so I was happy when I learned that operation is being phased out. Given the money spent by the State to accomplish this it makes no sense to me to allow other hog farms to take its place.

I, therefore, agree with the Rule Changes to Rules 5 & 6 for a permanent swine CAFO moratorium in the Buffalo National River Watershed as stated in Docket Numbers #19-002-R and #19-003-R
