**Date:** Saturday, September 21, 2019 2:58:55 PM

---

A big thank you, again to Governor Hutchinson for his positive actions concerning our beautiful Buffalo National River. I am begging you please to make this moratorium permanent. The karst geology is NOT going to change! The river will never be able to sustain the dumping of hog waste! It is The most valued treasure we have in Arkansas. We have to consider not only it's beauty but it's economic impact on our state. So many businesses rely on the tourist population beyond and including the canoe rental businesses. Please consider all this and make the moratorium permanent.

Sincerely,  
Susan K. Parker
