**Subject:** Changes in regulations

To whom it may concern at the Arkansas Department of Environmental Quality:

I would like my voice added to the many concerned residents of Arkansas. I am referring to proposed changes to Regulation 6 in Docket 13-007-R which implements provisions to Act 954. I urge you not to make any changes that would lower standards in water quality, drinking water or otherwise. With all the concerns lately in Arkansas regarding water quality we must say "NO" to industry that pollutes.

Sincerely,
