Subject: Act 1511 to improve public notice of applications for NOI for General Permit for CAFOS

I support the recommendations made by the Committee appointed by Gov. Beebe to improve public notice about NOI for General permit for CAFOs. I suggest that the sign placed near the Entrance to the production facility be in place both 30 days before application for NOI and NMP and 30 Days after application. This would be in the best interest of the public

Thank you

Alice Andrews
