Subject: Improved Notification Requirement for Regulation 6

I support the proposed changes to Reg. 6 concerning notification requirements.

* All public notice requirements specified in section 6.207 should be issued no more than 30 days prior to submission of the NOI.

In addition:

* The Arkansas Dept. of Health should be included in the entities notified.

* All federal lands and agencies including the National Park Service that would be affected by placement of a CAFO should be included in notification.

* E-mail notice to anyone joining a listserver to request notices should be included in notification.

* At least 2 "local" newspaper notifications in the area where CAFO is being proposed.

The notification of a proposed CAFO placement should not be kept at a minimum and a secret. These are

quality of life issues that affect a "shared" environment.

Thank you for allowing comment.
