By Act 143 of 2007, the Governor has directed that impacts to small businesses be analyzed prior to adoption of regulations. Furthermore, the Arkansas Legislative Council requires the submission of a Financial Impact Statement and Questionnaire for Filing Proposed Regulations with the Arkansas Legislative Council and Joint Interim Committee with proposed regulation changes. The following procedures are outlined to provide clarity in the requirements of these various impact statements.~~

- ~~2. The following analysis is necessary for the Commission to consider the economic impact and environmental benefit of any proposed regulation. This Economic Impact/Environmental Benefit Analysis ("Analysis") must be prepared by the proponent of the rulemaking initiated before the Commission based upon information reasonably available. If a rulemaking proposes to alter or amend an existing Commission regulation, the Analysis shall be restricted to the economic impact and environmental benefits of the proposed changes. This Analysis must be included in the Petition to Initiate Rulemaking before the Commission for all regulatory changes, unless the proposed regulation is exempt for one or more of the following reasons:~~

 - ~~➤ The proposed regulation is an emergency regulation that is temporary in duration.~~

~~If the proposed rulemaking does not require the following Analysis due to one or more of the exemptions listed above, state in the Petition to Initiate Rulemaking which exemptions apply and explain specifically why each is applicable.~~

~~**If a proposed regulation incorporates or adopts the language of a state or federal statute or regulation but does include one or more substantive change, then the Analysis shall address only the substantive changes.*~~

STEP 2: THE ANALYSIS (to be included in petition to initiate rulemaking, if required)
--

~~**Directions for Analysis Completion:**~~

- ~~1. Answer all questions, unless an exemption applies, using information reasonably available.~~
- ~~2. List source(s) for any data used in an answer. If a response cannot be provided to any question because information is not reasonably available, describe the sources consulted or steps taken in an effort to obtain the information in question.~~
- ~~3. Describe any assumptions used.~~
- ~~4. Complete the Economic Impact Statement, if applicable, as required by Act 143 of 2007.~~
- ~~5. Highlight on the attached map the boundary of the geographical area impacted by the proposed regulation, unless the proposed regulation applies to the entire state.~~
