Class A and Class B operators of underground storage tanks (USTs) are required by the federal Energy Policy Act of 2005 and Arkansas Act 264 of 2007 to be trained and certified in the operation and maintenance of UST systems which contain regulated substances. Class C operators are not required to take the certification exam and, therefore, should not see a fiscal impact from the proposed amendments.

6. What is the total estimated cost by fiscal year to the agency to implement this regulation? Is this the cost of the program or grant? Please explain.

## S 15,000 \* S 16,250 \* These additional costs to the agency consist primarily of the 25% match for the increased federal funding.
