Ark. Code Ann. §§8-4-201, 8-4-202, 8-4-304, and 8-4-311.

7. What is the purpose of this proposed rule? Why is it necessary?

This proposed rule implements federal rule changes made after the United States Environmental Protection Agency’s (“EPA”) periodic reevaluation of the NAAQS. In addition, this proposed rule updates Regulation No. 19, to be more closely aligned with multiple federal rules. The proposed changes will also clarify Regulation No. 19 and eliminate typographical errors.

This proposed rule is necessary to bring Arkansas into compliance with federal rule changes made as the NAAQS have been revised by the EPA. Also, by altering Regulation No. 19 to be in line with federal rules, the goal is for sources to find it less difficult to understand permitting requirements. Because the primary NAAQS are health-based standards and secondary NAAQS standards are set to protect public welfare, this rule change will allow ADEQ to protect human health and the environment from detrimental effects caused by NAAQS pollutants. The rule will also satisfy the State’s requirements under the Clean Air Act to prevent significant deterioration of air quality in areas of the state designated as "attainment" or "unclassifiable" for each NAAQS. Additional substantive changes were made to Regulation No. 19 with the intention of updating Regulation No. 19 to be more closely aligned with federal rules. All other changes were made as updates, clarifications, and error corrections.

8. Please provide the address where this rule is publicly accessible in electronic form via the Internet as required by Arkansas Code § 25-19-108(b).
