Regulation No. 23 affects all businesses and facilities which generate or manage hazardous wastes, used oil, and universal wastes. As of July 1, 2009, this addressed approximately 4,555 facilities and businesses in Arkansas, of which 1,275 actively manage hazardous wastes. The regulatory changes in this proposal are equivalent or in some cases less stringent than the previous state and federal requirements, so regulated facilities are anticipated to incur no additional costs to doing business or maintaining compliance. Businesses which are able to take advantage of the lessened requirements such as the conditional exemption for cathode ray tubes may see some decrease in these costs. These costs will vary widely by the nature of each affected facility, and it would be speculative to estimate these costs over the wide range of businesses and operations subject to the hazardous waste management program.

6. What is the total estimated cost by fiscal year to the agency to implement this rule? Is this the cost of the program or grant? Please explain.

<u>Current Fiscal Year (2010)</u>			<u>Next Fiscal Year (2011)</u>	
Federal Funds:	\$0.00		Federal Funds:	\$0.00
Special Revenue:	\$0.00		Special Revenue:	\$0.00
Total:	\$0.00		Total:	\$0.00

Implementing these proposed revisions will not discernibly increase or decrease program operational or administrative costs.
