Parties subject to this proposed rule will be those facilities with fine particulate matter (PM2.5) emissions that will be permitted. Establishing a minor permit modification threshold for PM2.5 will lower the potential cost impact for those facilities increasing PM2.5 emission by small amounts and allow changes to a facility to be implemented more quickly.

6. What is the total estimated cost by fiscal year to the agency to implement this rule? Is this the cost of the program or grant? Please explain.

ADEQ's estimated cost to implement this rule is expected to be minimal. The proposed changes to Regulation No. 26 are not anticipated to contribute to additional costs to ADEQ beyond the standard costs associated with finalizing the rulemaking action.
