Subject: APC&EC Rule 27

Ms. Goff and Mr. McAlister

I am an attorney with the Louisiana Department of Environmental Quality and Vice-Chairperson of the Southern Environmental Enforcement Network (SEEN).

I was provided a copy of proposed changes to APC&EC Rule 27. I observed a reference to SEEN on page 17 of the proposed changes. SEEN is listed as one of the approved providers of training to "operators". Based upon my appreciation of who an "operator" is, this may not be correct.

SEEN is more qualified to provide training to a person who is an "Environmental Officer".

I have found records that show the Arkansas Department of Environmental Quality (ADEQ) was a member of SEEN until 2009. SEEN provided training in Little Rock in 2004 and 2008.

I have attached a brief power point which explains more about SEEN.

If you would like to learn more about SEEN, please visit our website at <http://www.seentraining.org/> or call me at 225-219-0301.
