Proposed revisions to Rule 27 are necessary in order to promulgate new mandated rules for DEQ’s administration of the Environmental Compliance Resource Program, new mandatory rules for DEQ’s administration of the licensing program for solid waste management facility operators, new mandatory rules for the licensing requirements of environmental officers, and new mandatory rules for the licensing requirements of solid waste management facility operators. Specific changes in the rule through these amendments include: the definitions of “Environmental Officer” and “Environmental violation” that are amended to include references to open burning violations and all violations of Title 8, Chapter 6; fees for the solid waste management facility operator licensing program will now be paid on a biennial basis and licensing rules are amended to change the licensing periods from a fiscal year to a calendar year; all solid waste management facility operator licenses are renewable and require 12 hours of continuing education training biennially for renewal; environmental officer and solid waste management facility operator license reciprocity is granted if an out of state program has “substantially equivalent” licensing requirements; requirements for provisional status and reinstatement of solid waste management facility operator licenses and environmental officer licenses are added-- this includes amending the rule regarding operator licensing and reducing the period that an operator can recover a lapsed license without taking an examination, with the time period reduced from one (1) year to three (3) months; changes to Appendix C and the Uniform Environmental Officer citation were made so that Environmental Officers can now cite violations for open burning and any violation of title 8, chapter 6; Class C solid waste management facility operator licenses now require 30 course hours of training for qualification; and apprenticeship rules are amended so that Class 1A, Class 2A, and Class 3A apprenticeship licenses are now renewable. Additional non-substantive revisions are proposed throughout Rule 27 for consistency and clarity.

A complete listing of the proposed changes to Rule 27 can be found on the Draft Regulations page of the DEQ’s website: [https://www.adeq.state.ar.us/regs/draft\\_regs.aspx](https://www.adeq.state.ar.us/regs/draft_regs.aspx) under APC&EC Docket No. 22-001-R.
