Subject: Motor Vehicle Racing Facility Regulation

reg33-pn draft.doc (139 KB)

law.doc (57 KB)

Ms. Brown,

The Arkansas Department of Environmental Quality (ADEQ) plans to petition the Arkansas Pollution Control and Ecology Commission (APC&EC), at the Commission's meeting on June 27, 2008, to initiate the rulemaking process in order to establish Motor Vehicle Racing Facility Regulations. These regulations will substantially codify state law which has been in existence since 1995.

The ADEQ has determined that the attached proposed regulation is exempt from the requirements of Act 143 of 2007 because it substantially codifies existing state law. Attached for your review are the proposed regulation and the state law that is being codified. Thank you for your assistance on this matter.

Mike Porta, Assistant Chief
